Hydrobiologia

The International Journal on Limnology and Marine Sciences

Contents

Volume 362

Genetic diversity vs geographic distribution of five congeneric caddisflies
by G.R. Plague & J V. McArthur 1–8

Composition and abundance of resident marsh-surface nekton: comparison between tidal freshwater and salt marshes in Virginia, USA
by D.J. Yozzo 9–19

Feeding ecology of *Macrobrachium borelli* (Nobili) Decapoda: Palaemonidae) in the flood valley of the River Paraná, Argentina
by P.A. Collins & J.C. Paggi 21–30

Coral and sandstone reef-habitats in north-western Sri Lanka: patterns in the distribution of coral communities
by A. Rajasuriya, M.C. Öhman & R.W. Johnstone 31–43

Contributions to the knowledge of the Cladocera of north-east Thailand
by L. Sanoamuang 45–53

Waterfowl feces as a source of nutrients to a prairie wetland: responses of microinvertebrates to experimental additions
by C.T. Pettigrew, B.J. Hann & L.G. Goldsborough 55–66

Physical and chemical characteristics of ephemeral pond habitats in the Maracaibo basin and Llanos region of Venezuela
by J.E. Podrabsky, T. Hrbek & S.C. Hand 67–77

Phytoplankton composition and abundance of a central Amazonian floodplain lake
by M. do Socorro Rodrigues Ibañez 79–83

Summer biomass of a population of *Phyllophora antarctica* (Phyllophoraceae, Rhodophyta) from Antarctica
by M. Cormaci, G. Furnari, B. Scammacca, G. Alongi & M. Catra 85–91

Distribution of methane in waters of the Okhotsk and western Bering Seas, and the area of the Kuril Islands
by E. Dafner, A. Obzhirov & O. Vereshzhagina 93–101

Qiniella, a new orthoclad genus from China (Diptera: Chironomidae)
by X.H. Wang & O.A. Sæther 103–106

Food segregation in three species of portunid crabs
by R.S.S. Wu & P.K.S. Shin 107–113

Seasonal variation of nitrification along a salinity gradient in an urban estuary
by A. Iriarte, A. de la Sota & E. Orive 115–126

Mangrove zooplankton of North Queensland, Australia. I. Plankton community structure and environment
by A.D. McKinnon & D.W. Klumpp 127–143
Mangrove zooplankton of North Queensland, Australia. II. Copepod egg production and diet
by A.D. McKinnon & D.W. Klumpp 145–160
Phytoplankton communities in water bodies at Dungeness, U.K.: analysis of seasonal changes in response to environmental factors
by B.R. Chapman, B.W. Ferry & T.W. Ford 161–170
Effects of hydrologic changes on aboveground production and surface water chemistry in two boreal peatlands in Alberta: implications for global warming
by M.N. Thormann, S.E. Bayley & A.R. Szumigalski 171–183
Spatial and seasonal patterns of periphyton biomass and productivity in the northern Everglades, Florida, U.S.A.
by P.V. McCormick, R.B.E. Shuford III, J.G. Backus & W.C. Kennedy 185–208
The effect of continuous physical disturbance on mayflies of a tropical stream: an experimental approach
by J.M. Mathooko 209–216

Note
Redescription of *Microcyclops rechtyae* Lindberg, 1960 (Crustacea, Copepoda
by I.M. Mirabdullayev 217–221

Author Index 223

Announcements 225–226

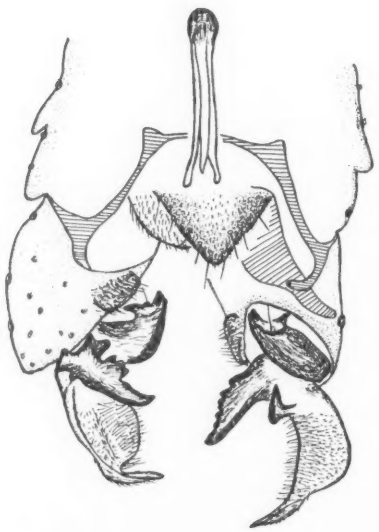

Illustration on cover: For explanation see the paper by Wang & Sæther (pp. 103–106).
